

WASH TUB

Wash up while maximising your plant space, and minimising heat loss.

RESISTS CORROSION, RETAINS HEAT.

The Waikato Milking Systems Stainless Steel Wash Tub is constructed from grade 304 stainless steel to provide corrosion resistance from harsh wash detergents, and excellent heat retention.

The Stainless Steel Wash Tub can be sized to suit your plant size to ensure the best use of space and to reduce unnecessary heat loss.

SPECIFICATIONS

- Manual drain port (50mm – BSP)
- Split lid - for quick inspection
- Stainless steel welded feet
- Raised off the floor for easy cleaning

Robust stainless steel construction

Precision engineered for corrosion resistance and to withstand the test of time.

Heat retention

Stainless steel construction reduces unnecessary heat loss.

Custom-sized

Can be sized to suit the size of your plant for maximum efficiency.
